

Lucy Kilgariff

Staff Governor

Having formerly worked as a solicitor I switched to teaching maths in 2011. I taught in South East London where I held the roles of KS4 Mathematics Coordinator and Numeracy Coordinator. In 2016 I decided to relocate to Devon with my family. Through a colleague, I had already heard positive things about Cullompton Community College and I was therefore delighted when an opportunity arose to work here. Upon joining the staff team in September 2016 I was instantly enthused by the dedication of the staff and the incredibly positive atmosphere for both staff and students. This unique atmosphere made me eager to contribute more to the school, and I therefore applied for the role of staff governor when it became available.
